

# Diana F+

We proudly present

by **lomography**

A loving recreation of the legendary 1960's  
all-plastic electronic flash camera

[www.lomography.com/diana/diana-f-camera](http://www.lomography.com/diana/diana-f-camera)

With its re-launch in 2007, and the commercial success thereafter, the Diana+ camera has reached the cult status of its original and has proven that analogue photography is far from extinction.

Quite to the contrary: we are about to set the cherry on the cream cake and letting our friends of the old-school shine in even more glory.

The hot new Diana F+ is equipped with an electronic flash that is out to bring back the flash-storms we know of the early sixties. With its smart retro-look, the new Diana F+ is guaranteed to capture all looks wherever it is flashed.

To top it all off, the package comes with two flash adaptors to allow the use on "conventional" cameras.

## All old familiar Diana+ features are back on board again:

- The plastic-fantastic Diana lens
- Two shutter speeds
- Two image sizes (12 squared images in 5.2x5.2 cm, or 16 smaller images in the classic Diana format of 4.2x4.2 cm)
- Multiple and partial exposures
- Pinhole function
- Endless panorama function
- Shutter lock and tripod thread

## Included in the package are:

- Diana F+ camera
- Diana F+ flash
- Two flash adaptors
- Colorfilters
- Lens cover
- Diana F+ book
- Manual
- 4.2x4.2 cm mask
- 4.65x4.65 cm panorama mask
