

The legendary Lomo is reborn! A sensationally original, robust, fully automatic (and sweet-smelling) as her famous predecessor!

The new Lomo Kompakt is equipped with the unique and famous wideangle lens designed by Professor Radionov. The lens, aperture- and the sophisticated filmspeed-settings are reaching from 100 to 1600 ASA. Therefore the 32mm objective guarantees impressive and absolute distinctive pictures with even more luscious colours in the classical lomo-look.

Your loyal and handy companion is of a very versatile nature:

Thanks to practical improvements like the cable release button, the film window, the integrated filter mount and the possibility of multiple exposure shots, the LC-A+ remains the one and only snapshot-machine!

The package contains :

- the Lomo LC-A+ camera
- a cable release
- the „Lomographiere“ hardcover book
- two rolls of 35mm Lomofilm 100 ASA
- three 1.5V batteries
- a manual in 8 languages
- packed in a noble, little wooden crate

Hard facts :

Article-Number: Ip400int
 EAN: 9007710007368
 Packaging Unit: 3 pieces
 Pricing: see current pricelist.
